CATLE.

The cattle market yesterday was tame because of the light receipts. The nurlect, however, showed a decided improvement as to prices, and everything sold 10 to 35 cants higher. There were two car loads which arrived after the market closed that were held over for today. The impression prevails that the big run of cattle is over, and light receipts are expected for several months to come.

This last has been determined since the rebuilding commenced.

Sam Stewart, of Medicine Lodge, came in with two car loads of feeders too late to sell last hight. These two cars make fifty-six car leads of cattle be has shipped from his ranch since last spring. He has a runch in Barber county under fence of 1,60 areas, and he says it is getting too small. He has to put some of his cattle out to pasture. He thinks of buying or renting a few more sections of land.
